

FilterCart Advanced

FilterCart Advanced mobile filter unit for light welding and extraction applications.

FilterCart Advanced mobile filter unit for light welding and extraction applications. FilterCart Advanced includes an Extraction Arm Original with an extended working range thanks to the 3 m (10 ft.) long arm. It includes a warning signal when the filter is full, satisfying the requirements of the COSHH WL3 guidelines on welding fume control published by the Health and Safety Executive in the UK. The hood is delivered without an integrated spotlight.

- Easy to manoeuvre
- Long lasting disposable filter with large filter surface
- HEPA 13 filter optional available
