

SmartMaster

Comfortable operation

Comfortable adjustment of self-supporting exhaust arm into every desired position with only one hand.

360° Radius

Maximum flexibility of exhaust arm for use without any restrictions.

3-Stage filter

Longer filter life of main filter due to two pre-filters.

40 % better capture rate

Less re-positioning work of exhaust arm due to larger capture area of the flanged hood.

Top price-performance ratio

Compact basic unit for sporadic use for welding applications.
