

High vacuum extraction hose up to 85°C - Art. No.: 93 0700 005

- » Heat resistant up to 85°C
- » Various sizes

Applications

- » extraction systems
- » laser technology
- » Machine and plant construction

Properties

- » ultraflexible
- » axial and radial spring reinforcement
- » Temperature range : 0°C to +85°C
- » PVC extraction hose with material reinforcement by spring steel spiral

Scope of supply

- » Two hose clamps
- » High vacuum extraction hose Ø 45 mm, 2.5 m long

Technical Data

Article number	93 0700 005
Basic data	
Diameter	45 mm
Length in m	5 m
Material	PVC weave with additional thread steel spiral
Bending radius	175 mm
Weight	0.43 kg/m
Wall Thickness	0.65 mm
Colour	black, RAL 9005
